Boundaries: The report covers all employees at Scania AB, which responds to 100 percent of the employees in the industrial operations and about 90 percent of the employees within the commercial operations. The report is a part of Scania's global reporting system for reporting ecumenical and other data. Scania measures the number of hours of absence due to illness, which also cover sick leave due to occupational injury.

Limitation of the scope: Scania's subsidiary Scania Finance AB is not included in the report. Health attendance data does not cover minor occupational injuries.
