

SCANIA CHARGING ACCESS

Charging made simple – keep your fleet moving

At Scania, we understand that easy charging is essential to keep your fleet moving. This is where Scania Charging Access comes in: a smart, hassle-free way to connect to a growing network of public charging stations for heavy-duty vehicles.

With a single card and account, you can easily find, access and pay for charging – all managed in My Scania

WHY SCANIA CHARGING ACCESS?

Predictable. Easy. Efficient.

Predictable pricing

Transparent, fixed pricing per country – clear costs and no surprises – plus access to partner discounts in some cases. Free signup and no monthly fees make this a perfect backup even if public charging isn't part of your daily operations.

Easy for fleet managers and drivers

On the road or in the office – charging is simple. Drivers can charge quickly with the Scania Driver app and a charging card while fleet managers monitor, plan and pay via My Scania.

One clear invoice

One simple invoice every month – no matter how many charging cards or vehicles you have.

Mixed fleet charging

Works seamlessly for mixed-brand electric bus and coach fleets.
