TRUCK GEAR STORIES

# WE ARE THE ROAD CREW

This is for the ones who stay in perfect tune with life behind the steering wheel and love the rhythm of the road. The roadies. The hard-working, steady-driving, heavy-carrying professionals who do all those things rock bands won't. Like tuning guitars, driving trucks, humping speakers, setting up stages and making sure that every single piece of the tour puzzle is in its place when the spotlights turn on and the drummer starts counting in the first number. It's all about getting it just right. Just like the new Scania Truck Gear collection.

Keep the truck ready and your hands steady. It's time to go. The band might rock, but they will never roll without their road crew.

Another gig in another city and the clock is already ticking. Every piece of gear must be securely packed in exactly the right order to make unloading as smooth as possible. Now is the time to be the great road crew that bands will write songs about. The ones who always gets there in time.

Highways and concert halls. A good song will take the band far. But never forget the ones who will bring them back home, safe and sound.

The seats are now empty, so let the roadies take the stage. Tear it down and pack it up! They're the first to come and last to leave. Back on the road again.
