SCANIA GENUINE PARTS
12 MONTHS UNLIMITED KM WARRANTY

Scania's Genuine replacement parts are more affordable than you think. In fact, we have not increased our parts prices since 2015, so they are actually even better value now than they were four years ago.

Scania recommends using only genuine replacement parts to keep your Scania truck or bus as reliable as possible, and also reduce the potential for a breakdown. When you are off the road, you can't service your customers so the true impact of a non-genuine part can be very costly to your business. All Scania Genuine Parts have been engineered and manufactured to Scania specification, to ensure they work perfectly every time you turn the key.

Year-after-year Scania provides you with complete peace-of-mind that the parts you buy from us are not only up-to-the-job, but also priced competitively, saving you time and getting you back to work as quickly and simply as possible.
