NEVER AGAIN FEAR THE INVOICE

WITH SCANIA
FIXED PRICE REPAIRS

FIXED PRICE REPAIR

Take the guesswork out of repair estimates

When you choose one of Scania Australia's factory-owned branches to undertake a repair on your Scania P,G or R-series truck, we can give you a guaranteed fixed price upfront for the repair. No ifs. No buts.

Quite simply, our Scania fixed price repairs include the cost of all parts, labour and consumables. And the invoice you receive will match the quotation exactly – so there won't be any unpleasant surprises. How does that sound?

We have worked out our prices using our global expertise, leveraging the benefit of more than 1600 workshops worldwide who are experts at keeping Scania trucks on the road.

We know exactly how long a repair should take to carry out. And if it takes a bit longer, we bear the cost – not you.

Some repairs involve "related parts" that should be changed at the same time, and these are always included in the fixed price.

And if during a repair we discover another procedure that should be carried out, we will give you a fixed price for that too, before we carry out the work.

Give us call and we'll give you a quote you won't find anywhere else.

No one is prouder of their new Scania than you, so why not add that little extra stamp of personalisation using the broad range of Scania Accessories. Across Europe, Scania customers love to add a personal touch to their vehicles and we think it is time Australian customers followed suit. So, we are making a huge collection of Scania Accessories available to you, from sheepskin seat covers (Australian-sourced, naturally), a built-in microwave or electric kettle on the inside, to a selection of light bars with super bright LED spot and driving lamps for the front and back of the truck, not to mention shiny hub and wheel caps. These are all Genuine Scania products, designed by Scania and made for Scania, and all can be fitted by your local dealer.

Scania Accessories add convenience, comfort, peace-of-mind and that final touch that says "IT'S MINE"!

AURUM LOW PROFILE, FULLY EQUIPPED, AMBER LED WARNING SYSTEM - 1778 MM

Modern, low profile full LED roof mounted warning system. This size fits perfectly on the roof rails of the New Generation Scania. Fully equipped, with amber LED's in all positions. Orange top plate. Easy wiring connections and installation. 24 V. Standard brackets included. Approved to ECE R10 & R65 regulations.

2018/2019 New Truck Generation model only

2614249

\$3,799 EACH

BYCOOL SLIM

The Bycool SLIM has a lower height profile compared with the Bycool Compact 1.4 or Bycool Compact 3.0. Its design is also more aerodynamic, making it even easier for you to reduce your fuel consumption. The Bycool SLIM is a 1400W cooling system driven by an electric compressor. Includes the pre-fitted unit, cable harness (does not need to be used if cable prep. FPC5168B has been preselected) and parts for reinforcing roof-mounted wind deflectors. The dimensions are (LxWxH mm) 896x874x116 mm, and it weighs about 34 kg. When installed, the unit adds an extra + 144 mm to the height of your vehicle.

2018/2019 New Truck Generation model only

2760059

\$3,999 EACH

INCLUDES FITTING

WELCOME LIGHT KIT

FOUR DIFFERENT STYLES AVAILABLE

The kit consists of 2 x complete LH and RH lamps, replacing the standard step well lamps. Easy to mount, using just a scwdriver with "plug and play" connection to the original cable harness. Note. Fits only to trucks ordered with originally fitted foot step well lamps.

2019 PREVENTATIVE MAINTENANCE GUIDE

P-G-R/P-G-R-S TRUCK

At Scania, we understand the importance of keeping your truck on the road and minimising the time it spends in the workshop. Therefore we always review our preventative maintenance recommendations to achieve the best outcome for you. This includes capitalising on the product improvements that Scania continually introduces. Scania understands that unscheduled maintenance and repairs add unwanted costs to operators. When a truck is off the road, there are not only the continuing overheads of repayments and wages, but there are also the on-costs of replacement vehicles, call-outs and towing. And, of course, there is the cost to your goodwill and the potential damage to your relationship with your customer when the freight can't be delivered on time. Scania has produced a list of some of the items we suggest be replaced or serviced as part of a preventative maintenance program that will maximise your fleet availability.

OPERATION TYPE AND DESCRIPTION

Operation type 1 - Long distance transport

Typical Single Trailer long distance operation <45 tonnes

Idling and power take-off operation is less than 25% of the total operating time.

Average speed is typically over 60 km/h

Operation type 2 - Heavy long distance transport up to 68 tonnes

Typical B-double long distance operation 45-68 tonnes

Like operation type 1, but with higher load on powertrain and chassis due to the higher gross weight or hilly topography

Operation type 3 - (Off-road) Construction operations

There are high or extremely high levels of the climate factors dust, dirt **AND**

Total idling and power take-off operation is more than 25% of the total operating time **OR**

Operation type 4 - Distribution

Total idling and power take-off operation is more than 25% of the total operating time **OR**

Traffic is extremely heavy, i.e. more than 250 stops or major decelerations per 100 km.

Average speed is typically below 40 km/h

Operation type 5 - Heavy long distance 68-130 tonnes

Heavy operations long distance between 68-130 tonnes

Like operation type 2, but with higher load on powertrain and chassis due to the higher gross laden weight.

PLEASE NOTE: Operation types are given as general applications. A regular analysis of the vehicles stored operational data will give an accurate determination of the vehicles application and service intervals.

This document is a guide only and any recommendations are general for the listed applications. The estimated life of components is based on data collated from vehicles operating in Australian conditions. The driving style, travel route, vehicle weight and quality of maintenance will affect the estimated service life of each component. The estimated service life of components does not imply any warranty or costs to be accepted by Scania Australia Pty Ltd, if the service life is not achieved.

CONNECT YOUR SCANIA ON US

Receive 12 months' complimentary access to the Scania Fleet Management Control Package.

Scania Connected Services enable our customers to manage entire fleets to maximise uptime and productivity.

For a limited time only Scania Connected Services is offering 12 months of complimentary subscription to our Fleet Management Control program, allowing you access to Fleet Positioning, Vehicle Performance Data, Driver Evaluation and Service Planning.

To find out more about Scania Connected Services, visit Scania.com.au or contact us on 03-9217 3291.

DISCLAIMER: This offer is for Control 10 for a period of 12 months including 2 Driver Fobs and is available to approved business customers only (excluding fleet, government, used or rental buyers) on new NTG Vehicles delivered between 1 September 2018 to 30 June 2019, unless offer extended. Not available in conjunction with any other offer. Offer is subject to the vehicle owner signing up to Scania Australia Connected Services terms and conditions during the offer period.

SCANIA NOW TOURING

- All new Scania charter Bus
- Scania from Bumper-to-Bumper
- 9 m³ of luggage space
- Seats up to 57 people

The all new Scania Touring has just been launched in Australia. It is a 12.3 m-long, 3.8 m-high and 2.5 m-wide school and charter bus that has 9 m³ of luggage space making it ideal for short and extended touring roles.

The new Scania Touring is a Scania from bumper-to-bumper, comprising a chassis and running gear common to Scania's proven route buses, while the body is mass produced to critical Scania Quality Assurance standards at a factory that sends Touring models all over the world.

With up to 57 seats, all fitted locally, and a choice of three engines, and two transmissions, the Scania Touring is a flexible, practical, and durable workhorse for the charter market.

Scania Genuine Parts Terms and Conditions

Our goods come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure. Subject to any such non-excludable rights and this express Warranty, all other terms, warranties, conditions, representations and undertakings (express or implied) which may lawfully be negated, excluded, modified, limited or restricted from and in relation to the sale of your Scania part/s are hereby to the extent permitted by law (but not otherwise) negated, excluded, modified, and restricted and the Company's liability shall, whenever permitted by law, be limited to the repair or replacement of any defective or faulty part or the payment of the cost of any such repair or replacement as the Company in its sole discretion determines to be appropriate. Scania Australia Pty Ltd (the Company) warrants that each new Scania Spare Part sold by it or any of its Branches or Authorised Distributors/Dealers to be free from defects in material and workmanship under normal use and service, its obligation under this warranty being limited to repairing or replacing, as hereinafter provided, at its option, at the Company's Branch or Authorised Distributors/Dealers discretion any part or parts found to the Company's satisfaction to be defective upon examination by it.

*** Fixed Price Repairs Terms and Conditions**

1. Scania Australia standard terms and conditions of sale apply. These are available online at www.scania.com.au 2. Applies to Retail sales only. 3. Available at participating branches and dealers only. 4. Fitted prices include inspection, diagnosis, verbal assessment, Scania approved parts, labour and consumables. 5. All prices include GST. 6. The published prices apply to the job shown (part numbers & RTS codes) and do not apply to other similar products available from Scania. 7. The Fitted Price Repair special offer pricing cannot be used in conjunction with any other discount or promotion. 8. Fitted Price Repair pricing is part of a promotional offer, which can be withdrawn at any time. In the event Scania Australia chooses to withdraw the promotion, then notice will be issued via the website: www.scania.com.au. This would not affect any pre-existing or accepted work agreed to by Scania Australia for the duration of the promotion. 9. Scania Australia may in the future alter any terms of this promotion without notice and in the event Scania Australia chooses to alter the terms of this promotion, then notice will be issued via the website: www.scania.com.au. This would not affect any pre-existing or accepted work agreed to by Scania Australia for the duration of the promotion. 10. All prices assume presentation of the vehicle, by the customer, to the repairing workshop. 11. Additional breakdown related charges will apply if the vehicle has suffered an involuntary stop at the roadside. 12. The Fitted Price Repairs published are created using Scania's standard times based on standard Scania vehicle specifications and do not include any additional labour required for the removal of catwalks, ancillary equipment, bodywork, superstructures or any non-standard equipment fitted to the vehicle. Additional time required to complete the job in respect of these items will be agreed with the customer prior to any work being carried out. 13. Mineral oils are used in all circumstances. Fixed Price Repairs do not include semi synthetic or fully synthetic oils. If these oils are required the difference in price between mineral oil and the semi synthetic or fully synthetic oils will be charged. 14. All information is believed to be correct at the time of going to press, however, Scania reserve the right to introduce at any time modifications of changes to the jobs and or programme as part of a policy of continuous improvement.

WARRANTY CLAIMS

To make a claim under this warranty:

1. Return the vehicle to a company-owned Scania branch or authorised dealer. 2. Provide details of the warranty (including the invoice for work completed) when delivering your vehicle to the company-owned Scania branch or authorised dealer and ask the service personnel to lodge a claim on your behalf. 3. Complete a claim form if requested. Other documentation such as proof of servicing, invoices etc. may also be required. We will ask for this documentation if we decide that it is required. 4. When travelling away from home, in the event that your vehicle requires emergency repair work and you are unable to deliver your vehicle to a company-owned Scania branch or authorised Scania dealer please contact Scania Assistance on 1300 722 642. Towing, overtime and roadside assistance costs are not covered on any warranty claims.

For more information relating to the terms and conditions relating to warranty claims please contact: Scania Australia Pty Ltd. 212-216 Northbourne Rd, Campbellfield VIC 3061

* PLEASE NOTE: Refundable core fees will be charged at the time of product purchase and will show as a separate line item on your invoice. Core fee credit will be applied to the customer account or invoice when cores are received subject to the following conditions: Cores must be complete, fully assembled, drained of fluids and in rebuildable condition and chassis number and mileage information must also be provided. Burnt products or any cores that are broken damaged or destroyed by incorrect use, dismantling, handling or transportation will not be accepted. Prices within the promotion include GST and conclude end of April 2019, or while stocks last. Images in this brochure are for display purposes only and may not represent actual products. Offers available from your authorised Scania branch or participating dealers. Prices and specifications were correct at the time of printing and are subject to change without notice. For a full list of Scania terms and conditions please go to scania.com.au. RTA # AU07116.

Phone **1300 SCANIA** or visit scania.com.au to find your local Scania Branch or Authorised Scania Dealer
