

## **Selection of region**

The radio gives you the option of listening to the FM and AM wavebands. For this to be possible in all parts of the world the radio must be set to the correct region. If you do not have any problems listening to the AM band then you do not need make any adjustments to the radio settings. Selectable regions are Europe (EUROPE), South America (SOU AMER) and Asia/Pacific (ASIA/PAC).

Proceed as follows to change region:

- 1 Activate the radio mode (SRC)
- 2 Simultaneously press station button 3 and 5, (10), for at least 3 seconds. The current region is shown on the display.
- 3 Press button 3 and 5 again to change to the next region. Repeat until the correct region is shown in the display.
