S'Café – Functional innovation from bean to body

At Scania, we are always on the look-out for clever ideas and solutions that contribute to better well-being and support an active lifestyle. Take the S'Café technology, for example – an idea as brilliant, as it is simple.

Two common household waste materials, coffee grounds and plastic bottles, are used as core ingredients in an innovative fabric with great functional properties. Five recycled PET bottles and three cups of coffee are amazingly combined into one of our functional t-shirts.
