# APPRENTICESHIP OPPORTUNITIES

**SCANIA**

An apprenticeship scheme is one of the best ways to have first class on-the-job training and earn a regular wage. We will give you the chance to work for the Scania UK dealer network and gain a nationally recognised qualification.

### **About Scania**

With 44,000 employees in 100 countries, Scania is a major supplier of trucks, buses, coaches and engines.

In the UK, Scania dealers offer sales of new and used vehicles and, through a nationwide network of 89 service points, provide a wide range of services to support transport operators' individual needs.

### **Our Apprenticeships**

We're always on the lookout for skilled employees and an Apprenticeship Scheme is one of the best ways to have first class on-the-job training and a regular wage.

Our award-winning programmes give you the chance to join a world renowned company and gain nationally recognised qualifications. We'll give you practical and relevant experience and training so you'll have the skills to succeed. And it's not just a job. It's the first step towards a career at Scania.

## Length of programme

A typical Scania Apprenticeship Programme lasts three years but apprentices may progress through the course faster dependent on the discipline chosen.

Many apprentices will spend up to eight weeks per year receiving off-the job training at the Scania Training Centre.

## National Vocational Qualifications (NVQs or SVQs in Scotland)

As part of their studies apprentices will be assessed in the workplace. Once they have proven their competence in the full range of skills required for their job they will achieve an NVQ qualification at either Level 2 or Level 3.

## Courses available on the Scania Apprenticeship Programme

The Scania Apprenticeship Programme has been developed to offer seven disciplines\*:

- Heavy vehicle technician
- Parts advisor
- Sales
- Customer care
- Business administration
- Team leading
- Management

\*Available according to location
