Tailored insurance should be just that – customised for you. We make it our priority to ensure your insurance accurately reflects your requirements, protects your trucks and provides you with peace of mind.

In addition, we know that having a vehicle off the road can have a critical impact on your business and livelihood, which is why our proactive risk management advice is designed to help you prevent this from happening.

And, should you be unfortunate to have to make a claim, the claims support you receive will help minimise any downtime.

Our bespoke service for six or more trucks, non-standard vehicles, buses or coaches

Insurance is a key expenditure for many large or specialist transportation companies.

Your business, its risk issues and insurance needs could also be complex. Therefore, you may expect bespoke solutions, flexibility and support from experts you trust.

This is where Marsh, the insurance broker behind Scania Insurance Services, is ideally positioned to help.

When you contact us, we will arrange for a Client Executive to visit you to get to know your business and discuss your insurance requirements face-to-face. They will then design a bespoke insurance solution for you and your business.
