FLEXI-BUY

The product

Hire Purchase gives you an easy and affordable way to buy your vehicle with fixed payments over an agreed term. But what if you have a business that has fluctuations in cash flow where you're fortunate enough to have extra cash that could help to repay your finance quicker?

Scania Flexi-Buy is designed to help you do just that. Giving you all the advantages of Hire Purchase with the added flexibility of being able to make additional payments, Flexi-Buy gives you the opportunity to repay your finance quicker and thereby reduce your overall interest costs.

How it works

Scania Flexi-Buy allows you to make an additional payment once a year up to the value of 20% of your remaining balance – without incurring any penalty charges. All you need to do is give us at least 2 weeks' notice before your Direct Debit collection date to give us time for the payment changes to be processed.

What's next

Flexi-Buy helps to make your Hire Purchase financing more flexible – giving you greater flex in your repayments, whilst still keeping your budgeting simple.

After making your additional payment you will have the choice of:

- Allowing the repayment period to stay the same and reducing your payments, or
- Keeping your payments the same and reducing your overall repayment period, or
- A combination of both
