SCANIA'S POSITION ON FUEL ADDITIVES

Scania does not endorse or recommend the use of fuel additives in Scania vehicles.

The use of fuels, including additives or other substances, which fall outside of the relevant EN standards will likely invalidate a vehicle's warranty if they cause or contribute to damage to a vehicle.

The use of fuels, which may include additives, that meet the EN standards and as set out in the Scania Manufacturer's Guidelines will not invalidate a Scania vehicle's warranty.

Yours faithfully,

Scania (Great Britain) Limited
