

SCANIA BUS AND COACH

BODYBUILDERS WE COLLABORATE WITH AROUND THE GLOBE

Based on more than a century of engineering experience, the new generation of Scania buses and coaches has been developed to meet the demands of operations both now, and into the future.

Energy-efficient and available in a wide range of powertrains, they offer the latest technology in everything from safety systems to reduced emission and noise levels. Offering excellent uptime and fuel economy, these coaches deliver the benefits of sustainable mobility together with a better total operating economy – the perfect foundation for any urban transport or travel operations vehicle.

Explore some of the bus and coach bodybuilders we collaborate with – a few examples of the many that utilize Scania chassis and components across the globe.

Higer

Scania and Higer have built a strong relationship together over 15 years. We offer models for both travel operations and urban transport, including the Scania Higer A30, Scania Higer T50 and the Scania Fencer f1 and f6. Contact Scania in your region to see our full offering

Irizar

Scania enjoy a long partnership with Irizar, offering models for both travel operations and urban transport markets. Models include the Scania Irizar i6, i6 S and i8 as well as the Scania Irizar i3 LE and i4. Contact Scania in your region to find out more and explore our full offering.

Marcopolo

Scania's long-standing partnership with Marcopolo has resulted in a range of models for both travel operations and urban transport. These include the Scania Marcopolo Audace, Paradiso and Viaggio plus the Scania Marcopolo Viale and Torino. Contact Scania in your region to learn more.
