

SERVICES 360

FULL

Full repair and maintenance coverage plus a suite of digital tools and insights

Coverage for all of your most important repair and maintenance needs. Powered by our digital tools and services, built on a Flexible Maintenance foundation – with added coverage for both powertrain and chassis and cab repairs. All with quick response, excellent spare parts availability and of course with Scania Assistance advisors just a quick call away, 24/7.

If you run the type of operation that is focused and streamlined towards transport logistics rather than ensuring the that your fleet is ready to fulfill those logistics needs, the Services 360 Full package could be your perfect match – with all of your maintenance and repair needs safely in the hands of our wide service network.

FOR EVERY EVENTUALITY

The best type of repair is one you don't have to perform, and well-planned maintenance can be key to prevent many component failures from ever occurring. Thanks to the Flexible Maintenance plans included in all our packages, built on each individual vehicle's operational data, you can be sure that your vehicles are always thoroughly maintained to prevent vehicle issues. With the added chassis and cab as well as powertrain repair coverage, our workshops are ready all across Europe for any type of productivity affecting vehicle failures – however unfortunate. And if you want to take your coverage one step further, we do have the Pro package as an option, with preventative repairs and proactive replacements of parts powered by advanced AI-driven analysis based on years of data collected nearly a million constantly connected vehicles.

Looking for something more tailored?

When it comes to coverage for unexpected needs, you naturally have to draw the line somewhere. That means what we call full, might be more than some want, and not enough for others. With this in mind, the Services 360 Full package can be tailored with further add-ons and options such as Towing coverage and top-level repair priority with Max 24. If you have any questions regarding the perfect package for your business or operation – reach out to us, and we will figure out the perfect solution together.

Services included:

- Control Package
- Flexible Maintenance
- Expanded Powertrain Repair
- Chassis and Cab Repair

Add-on services:

- Towing
- Max 24
- Trailer Location and Performance
- Tachograph Remote/Basic
