JOINING YOU ON

**THE ROAD
TO SAFETY**

SCANIA

ALWAYS SAFETY FOCUSED

BY BEING SAFETY FOCUSED
YOU CAN HELP TO...

Save lives of
vulnerable road users

Reduce vehicle
damage

Achieve **safety**
standards

Identify potential dangers
before they happen

Safeguard your
company's reputation

Reduce insurance
premiums

Improve **driver behaviours**
and reduce driver incidents

Enhance your **duty of care** by
protecting your colleagues

Improve **visibility**
for your drivers

WHEN IT COMES TO SAFETY THERE IS NO COMPROMISE

It is essential that we work together to help keep our colleagues, customers and all road users safe. Not only because compliance dictates it but because it is the right thing to do – following safe practices will help you to achieve this.

We have high standards when it comes to safety and wellbeing. Whether that is our own working practices, or our product development. Our vehicles are designed with the driver at the forefront, with the aim of providing them with a safe, ergonomic and comfortable working environment.

And what's more it is part of our sustainability strategy too. Safe transport is vital for a healthy and functioning society and should be safe not only for drivers and transport users but also all other road users, including pedestrians, cyclists and other road vehicles.

By working together, we can help to keep everyone safe on our roads – drivers, cyclists, and pedestrians alike. With compliance from all parties involved in the transport industry and extra measures taken to increase road safety, we can make sure that our roads are safe for everyone.

SAFETY ON THE ROAD

LET'S PLAY OUR PART TO MAKE OUR ROADS SAFER FOR EVERYONE

It is essential that everyone involved in the transport industry works together to help ensure the safety of all road users. This includes compliance with laws and regulations as well as taking extra measures to increase safety.

For more information on vehicle blind spots, visit nationalhighways.co.uk/road-safety/know-the-zones

GET READY FOR DVS 2024

Launched in October 2019, the Direct Vision Standard (DVS) has been designed to improve road safety on the streets of London for pedestrians, cyclists and other vulnerable road users by minimising blind spots for HGVs. Further legislation is coming in 2024. Contact your local Scania Service Centre for more details.

64%
reduction in road
deaths and serious
collisions involving
an HGV since DVS
launched

Minimise your blind spots

SAFETY ON SITE

SAFETY SHOULD ALWAYS START AT HOME

And continue when you are away, on the road or on a customer site. Make sure you are protected with our range of PPE and truck accessories. It's easy to become complacent when you know your job so well, or you're under time pressure. But don't take risks with your own safety.

SAFETY COMPLIANCE

WE ARE COMMITTED TO PROVIDING RELIABLE SERVICES, NO MATTER THE SITUATION, LOCATION, OR TIME

Here to help you, every step of the way

With our extensive range of truck services, you can rest assured that your commercial vehicles will be well looked after. Our experienced, knowledgeable staff are equipped with the latest training, tools and technology, meaning you can be confident in getting good value for money and good uptime for your operation.

From individually tailored contracts to minor truck repairs, whatever your business needs, we are here to help keep you safe on the road.

SCANIA ASSISTANCE

An invaluable service that is available 24/7/365 for your peace of mind. With one call, you're in touch with a professional service coordinator who can support you in your emergency.

Standard in our R&M Package.

Visit [scania.co.uk](https://www.scania.co.uk) for more information on how we can support your business.

O-LICENCE PROTECTOR CONTRACT

Key features:

- O-Licence inspections and document filing
- Full MOT package
- Loaded brake tests
- Monthly payment terms
- Software updates
- Defect reporting
- Tacho calibrations

MINOR REPAIRS WHILE YOU WAIT

At Scania, we understand the importance of quick and efficient repairs. That's why our service centres offer minor repairs (30 minutes and under) without the need for pre-booking to help keep you safe on the road.

SOFTWARE UPDATES

Do you have a dashboard warning light? This could indicate a campaign or software update and could be safety-critical. Speak to your local service centre to find out.

Software Updates

£79.00*
for the initial 5 updates

SAFETY IN THE CAB

AS A DRIVER, FEELING SAFE AND COMFORTABLE IN YOUR CAB IS IMPORTANT

Making sure you take regular breaks is necessary for compliance but also essential for your physical and mental wellbeing. And equipping your cab with safety essentials ensures a safe working environment.

TAKING BREAKS IS NOT JUST ABOUT BEING COMPLIANT

Over 40% of HGV road accidents in the UK come down to driver error or reaction time, according to an analysis of the latest data from the Office of National Statistics (ONS) by smart payment provider Snap.

Based on data analysed between 2012-2021.

Did you know, on Scania vehicles built after 2011 you can keep track of your driving hours via the instrument cluster, or via our online portal my.scania.com

MY SCANIA
FLEET POSITION

SCANIA

ONLINE TACHOGRAPH SOLUTIONS

All Scania vehicles built after 2013 have the capability to download tachograph data remotely. Through our Tacho Download Package you can access and analyse the data via the My Scania portal.

We can also integrate with 3rd party suppliers that you use, so everything is in one place.

Avoid manual tacho data downloads and speak to us today. scania.co.uk/connectedservices

SAFETY LIGHTS

WHEN VISIBILITY IS LOW, MAKE SURE YOU CAN STILL BE SEEN

A Scania cab offers panoramic views of the front and sides. Slim A-pillars, low side windows and instrument panel contribute to enhanced visibility for the driver. During the darker hours, the night lighting function can be used to help reduce reflections and other disturbances. High-mounted spot lamps are incorporated into the sun shield, while auxiliary lighting includes fog and spot lamps for adverse weather conditions. But if you need any additional lighting or replacements, you know where to come.

SAFETY DIGITALISED

MY SCANIA

Our online portal where everything can be accessed in one place.

Visit my.scania.com

TACHOGRAPH DOWNLOAD

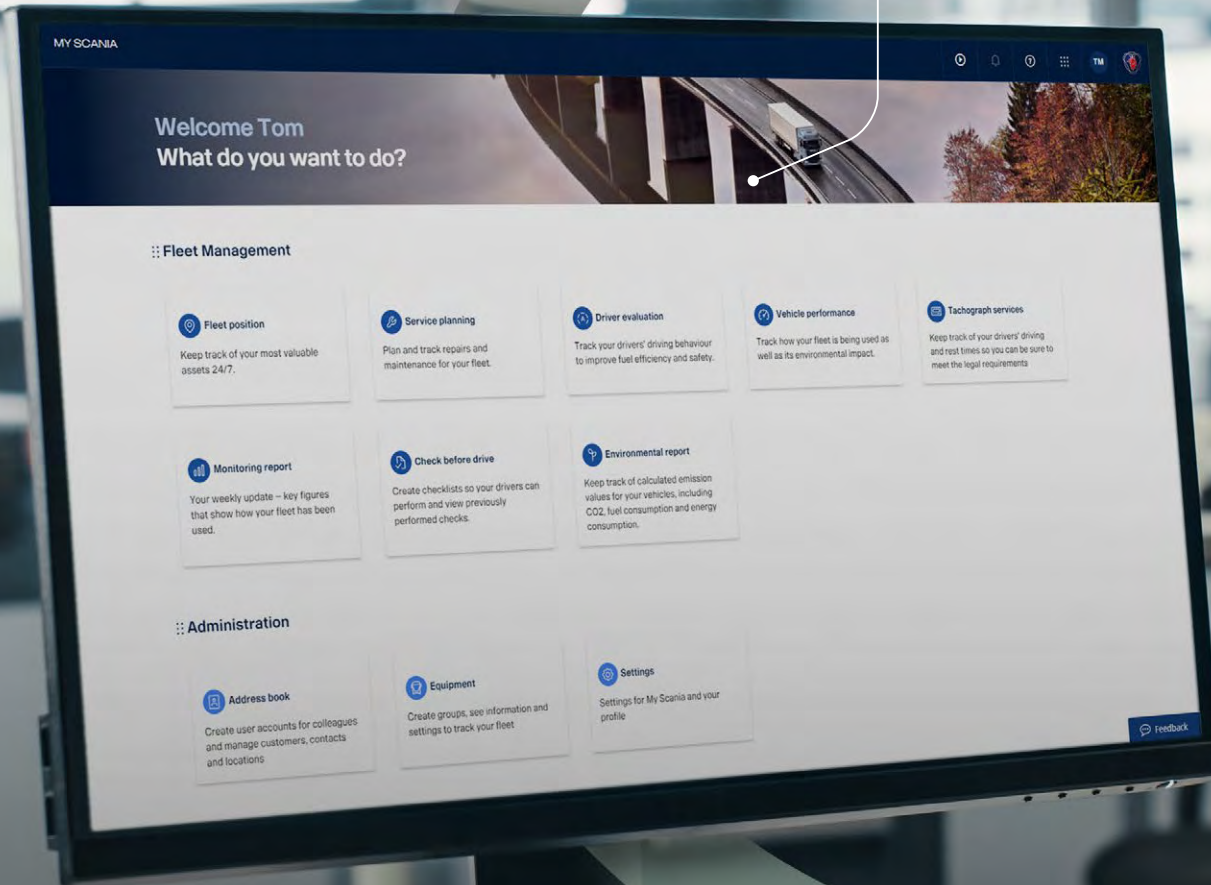

Avoid manual tacho data downloads and get everything you need from your desk. Available as a standalone package or integration with your 3rd party supplier.

SAFETY ALERTS

Through our Fleet Position package you can be alerted when the driver or passenger are not wearing their seatbelt, and be notified of harsh braking.

SERVICE PLANNING

Available to contracted services customers, this enables you to push any reported defects to your chosen Scania workshop through our portal.

HARNESS THE POWER OF VEHICLE AND DRIVER DATA TO ENHANCE SAFETY

Every Scania since 2011 has been created with smart technology, advanced sensors and wireless connectivity, which means you can keep informed of your operations from your desk or remotely through our app. The information we can provide allows you to plan ahead and react quickly, helping you to keep operating safely.

According to FORS, collisions involving commercial vehicles have an estimated £4.4 billion costs of damage every year. Receiving real-time data on vehicle defects, or driver breaks could help you prevent the worst from happening.

SCANIA DRIVER

Coming soon, the Scania Driver app includes a host of tools right in the palm of your hand. Including defect reporting, custom walkaround checklists and driving profiles, with tips for improvement and driving time.

Find out more about Connected Services and associated costs, by scanning the code.

DRIVING TIME

View accumulated driving times, updated at 1-minute intervals, including driving time, working time and rest periods. Spot any possible safety breaches as they happen.

ROUTE PLANNING

Check your route for height, weight and width restrictions, and spot potential safety hazards in advance.

FLEET POSITION

With over 40 warnings and alarms, taken directly from your vehicle's instrument cluster. Be alerted when any deviations require immediate attention.

Connected Services Packages are available for vehicles built after 2011, some packages may not be available depending on vehicle specification. Speak to us to find out more.
