VEHICLE RELATED SERVICES

Contents

VRS

Welcome to the First Edition of the VisionTrack Product Guide. Inside, you will find a comprehensive range of VisionTrack dashcams and multi-camera systems that have been designed to achieve the highest levels of safety for all road users – including drivers, cyclists and pedestrians – and help meet ever stricter industry standards. This includes custom-built kits for anyone wanting to comply with Direct Vision Standard (DVS), FORS Silver and Gold, Construction Logistics and Community Safety (CLOCS) and Work Related Road Risk (WRRR).

Vehicle hardware and parts are supplied through the Scania UK network, and come with all the benefits associated with this, including high product availability, flexible delivery service, and a comprehensive warranty. Developed by Scania, VRS offers a market-leading range of all makes of truck and trailer parts, lubricants, chemicals and workshop consumables, all available through its UK Dealer Network. By accessing such an extensive range in one place you can save time, effort and money every time you order.

Contact your nearest Scania dealer or visit our website to find out more: www.vehiclerelatedservices.co.uk

VisionTrack

VisionTrack is Europe's leading provider of cloud-based video telematics. The company's unique approach is helping tackle some of the most complex challenges faced by the fleet, road transport and insurance sectors, providing the operational insight, business intelligence and enriched vehicle data needed to make strategic mobility decisions.
